

CO-AG 1031

REDUCE EXCESSIVE ASPHALT BLEEDING BY UP TO 100%.

Co-Ag 1031 is a latex modified emulsion that is specifically designed to alleviate asphalt bleeding problems on seal coated roadways. When applied in a seal coated overlay, this one-of-a-kind product helps to reduce excessive surface bleeding by up to 100%!

Co-Ag 1031

- Environmentally friendly, solvent-free asphalt emulsion
- Rejuvenates existing asphaltic oils on roadway surface and eradicates bleeding
- System may also be used as a stress-absorbing membrane interlayer for hot mix overlays
- Competitively priced versus other preventative maintenance options
- Technical support provided to ensure proper application

Contact us at (800) 323-3053 for more information on Co-Ag 1031 and other specialty asphalt products and services.
